

SBT Has Partnered to Keep Your Network & Internet Security Running

**Need Help Protecting Your Network From Hackers?
Contact SBT, Inc. for a FREE Astaro Security Gateway Trial**

Free Astaro Security Gateway Trial

The Astaro Security Gateway Professional Edition is a complete unified threat management solution that provides full network, web, mail and web application security through a single appliance. Test the Astaro Security Gateway free for thirty days, in the deployment method of your choice without charge or obligation. Supply our representatives with your business card or contact information and an SBT, Inc certified IT technician will contact you within the next 10 days.

SBT, Inc. understands the importance of protecting small and medium-sized businesses from having their networks exploited in the same manner as large businesses.

Partnered with Astaro Corporation, SBT, Inc. delivers systems and solutions to help protect networks while improving productivity.

As your preferred solution provider, we deliver products and services that enable our clients to protect their networks from a number of security threats. The Astaro Security Gateway combines the many elements of web filtering into one easy-to-use appliance. We can remove the complexity and high costs you have with dedicated URL filtering, and anti-virus and IM control tools. Let us worry about protecting your network from hackers so you don't have to.

Let SBT, Inc. Contact You!

Need more information? Want to see a live in-person demo of this technology? Please contact us regarding the services we offer to find out how we can help you provide assurance that your customers can meet ethical and legal obligations.
